

# Introduction to Python Programming

Final project presentation

## Group X

Project [Y]: [project title]

Students: A, B, C, D

The presentation will be assessed on:

- **Content:** the project goal, results, and the code that you present should be explained clearly and informatively.
- **Structure:** your presentation should flow well, and not significantly under- or over-run.
- **Delivery:** your presentation should be well-paced, enthusiastic, and engaging.
- **Quality of slides/visual aids:** your slides should be laid out professionally, and carefully designed/chosen to enhance the presentation.

Presentation strengths:

- 
- 
- 
- 
- 
- 
- 

Points for improvement:

- 
- 
- 
- 
- 
- 
-
